& Management*

Environmental Technician

Our office in Islandia, New York is seeking a responsible, self-sufficient, energetic Environmental Technicians for the Operations and Maintenance of several remediation systems at our project site in Greenpoint, Brooklyn.

Primary responsibilities will involve performing a range of environmental technician assignments while working with a team of technicians and receiving close supervision. Work will consist of hands-on operations and maintenance (O&M) tasks, as described below. The ideal candidate will be motivated to develop and build on these skills to assist with the growth and success of the office. We offer a friendly, professional atmosphere with excellent benefits and a salary commensurate with experience.

Primary Responsibilities

- An understanding of environmental and health & safety regulations; ability to perform work in a compliant manner with the regulations and facility safety requirements for all field work
- Inspect system equipment to evaluate remedial system performance and identify potential malfunctions
- Perform maintenance on system components to ensure or restore proper operation and compliance
- Collect samples from monitoring wells; system water and vapor samples
- Collect, record, and evaluate system performance data
- Assist project managers with the procurement of equipment and supplies
- General office assistance such as filling out log books and submitting reports
- Oversight and supervision of subcontractors involved in environmental protection and monitoring system maintenance and repairs

Position Requirements

- Excellent interpersonal/communication skills
- Positive team-oriented attitude
- A safety-first approach to all work activities
- Ability to perform heavy physical labor including the operation of machinery and climbing ladders to access equipment
- Ability to work outdoors year-round
- Valid driver's license (no DUI/DWIs)

Notes:

- This is a safety sensitive position and requires drug testing as a condition of employment.
- Work shift hours are anticipated to be 6:30 AM to 3:00 PM; however, occasional work outside of these times should be expected.

Certifications

- HAZWOPER certification. **Note:** Roux Associates will arrange for and pay for required training, including 40 hour HAZWOPER (Hazardous Waste Operations and Emergency Response) training per 29 CFR 1910.120.

Benefits

We offer a comprehensive benefits package which includes:

- Competitive salary, commensurate with experience
- Annual bonus based upon performance
- Medical, Dental, Vision, Health Savings Account, Flexible Spending
- Life and Disability Insurance
- 401(k) Plan
- Paid Time Off
