

ROUX ASSOCIATES, INC.
*Environmental Consulting
& Management*

Project Engineer

Our office in Oakland, California is seeking responsible, self-sufficient, energetic Project Engineers with environmental consulting experience to support diverse and challenging litigation, insurance, industrial, and brownfield projects. We are seeking candidates who are interested in professional growth into new areas and practices. Excellent teamwork, communication, and organizational skills are required.

The ideal candidate will be motivated to develop and build on these skills to assist with the growth and success of the office. We offer a friendly, professional atmosphere with excellent benefits and a salary commensurate with experience.

Primary Responsibilities

- Manage site investigation activities including environmental sampling of soil, soil vapor, and groundwater
- Analyze field data and prepare data evaluation reports
- Manage tasks, prepare cost estimates and technical reports
- Approximately 20% field work
- Provide a broad range of technical analyses related to litigation support services
- Provide third party oversight including review and critique of other consultants' technical approach, reporting, and reasonableness of costs

Desired Education

- Ph.D., M.S., or B.S. in Geology, Hydrogeology, Civil, Environmental, or Chemical Engineering

Desired Job Experience

- 3-10 years' experience
- Experience with hazardous waste site investigation and remediation is required

Certifications

- HAZWOPER certification required
- Professional registration preferred
- Valid driver's license (no DUI/DWIs)
