

Alpha Analytical's Technical Series - June 21, 2017

Albany, NY: Emerging Contaminants Seminar

PDG's: Applied for Status
Program Fee: \$40 online / \$60 onsite
Location: Desmond Hotel and Conference Center, Albany, NY

Program Description

To quote the United States Geological Service - "what we find in the environment often depends on what we look for and how hard we look". Emerging contaminants such as per- and polyfluoroalkyl substances (PFAS), 1,4-dioxane and perchlorate are being widely discussed in the media as well as the environmental community. Many states have been taking the lead in drafting policies and regulations, and as such there are differing requirements in terms of analytical methodology, target compound lists, regulatory standards, detection limits, etc. This presentation will focus on an overview of the potential sources of these contaminants and the analytical method options that are available to address them.

Alpha Analytical has assembled a team of experts for this half-day session which will address and educate current and future practitioners as it relates to the challenges practitioners face when confronted with emerging contaminants.

Professional Development Credits

PDHs for this course have been applied and certificates of attendance will be provided.

Program Fee

The cost for this program is \$40. Day of event registration is \$60. Registrations are non-refundable but are transferable. To register for this event, please contact Shannon Turner at sturner@alphalab.com.

Date: June 21, 2017
On-site registration & breakfast begins at 8:00am
Presentations: 8:30am - 11:30am
Location: Desmond Hotel & Conference Center
660 Albany Shaker Rd, Albany, NY 12211

Thank you to our speakers:

Program Schedule and Speakers:

- 8:00am - 8:30am
On-site Registration & Breakfast
- 8:30am - 8:45am
Opening Remarks
Speaker: Nancy Struzenski, Alpha Analytical
- 8:45am - 9:15am
Emerging Contaminants and the Risk Related
Speaker: Dan Lang, Arcadis
- 9:15am - 9:45am
Legal Ramifications
Speaker: Dana Stanton, Esq. Nixon Peabody
- 9:45am - 10:15am
Executing a Field Program for Collecting Samples for PFOAs - The Do's and Don'ts
Speaker: Jim Dick, Roux Associates
- 10:15am - 10:30am / Mid Morning Break
- 10:30am - 11:00am
Chemistry and Analytical Methodology Review of Perchlorate, 1,4-Dioxane and PFAS
Speaker: Jim Occhialini, Alpha Analytical
- 11:00am - 11:30
Panel Discussion and Q&A
All Speakers
