**List of Acronyms**

Acronym	Definition
CAMP	Community Air Monitoring Program
CP-29	Commissioner Policy 29, Environmental Justice and Permitting
EMGPRP	ExxonMobil Greenpoint Petroleum Remediation Project
NOCA	Notice of Complete Application
NYSDEC	New York State Department of Environmental Conservation
ORS	Off-Site Free-Product Recovery System
PEJA	Potential Environmental Justice Area
PPP	Public Participation Plan
RCS	Former Brooklyn Terminal Free-Product Recovery and Containment System
SPDES	State Pollutant Discharge Elimination System
SVE	Soil Vapor Extraction

## **I. INTRODUCTION AND OBJECTIVE**

This Public Participation Plan (PPP) has been prepared by Roux Environmental Engineering and Geology, D.P.C. for ExxonMobil Environmental and Property Solutions Company on behalf of ExxonMobil Oil Corporation (hereinafter referred to as “applicant”) to fulfill and comply with the requirements of New York State Department of Environmental Conservation **Commissioner Policy 29, Environmental Justice and Permitting (CP-29)** for ExxonMobil’s proposed action to consolidate and relocate two existing groundwater treatment facilities associated with the ExxonMobil Greenpoint Petroleum Remediation Project (EMGPRP), that requires an application to modify the existing NYSDEC State Pollutant Discharge Elimination System (SPDES) (NY 0267724) and Long Island Well permits, and which has been determined by NYSDEC to potentially impact one or more potential environmental justice areas (PEJA) (See Figure 1).

This PPP has been developed in accordance with the procedures established in CP-29 Section V.D and it aims to help ensure meaningful and effective public participation throughout the NYSDEC environmental permit review process. Public participation in the NYSDEC environmental permit review process means a program of activities that provides opportunities for stakeholders to be informed about and involved during the review of a proposed action.

The objective of this PPP is to outline and describe the program of activities that the applicant will implement to actively seek and enhance public participation during the application review process.

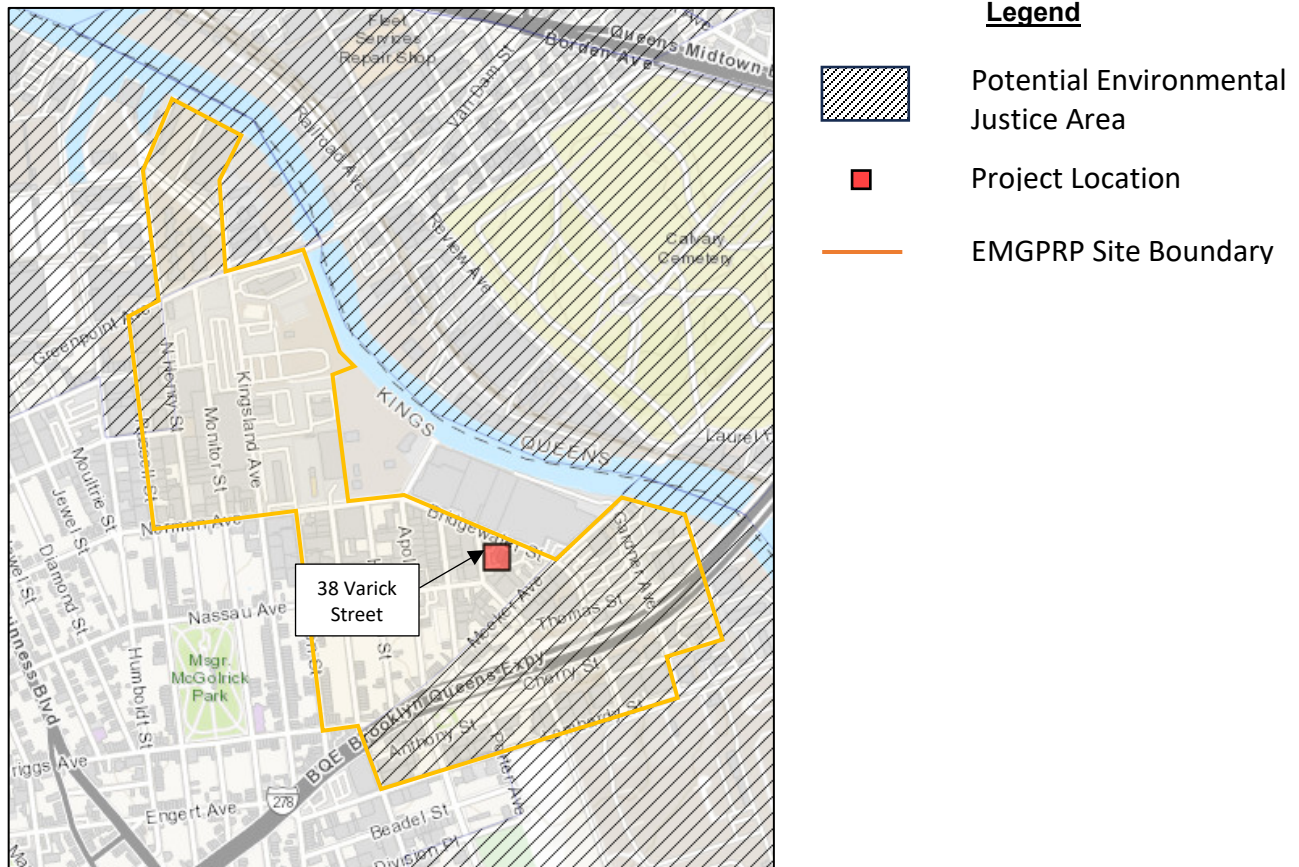

Figure 1. Project Location and Potential Environmental Justice Area(s) (source: NYSDEC 2020 ArcGIS)

## **II. PROJECT DESCRIPTION AND PROPOSED ACTION**

### **Project Overview**

The applicant proposes to inform and involve the public of:

1. The consolidation and relocation of two existing groundwater treatment facilities of the EMGPRP into a single groundwater treatment facility to be located at 38 Varick Street, Brooklyn, New York. There will be no change in the overall discharge quantity to Newtown Creek.
2. Discontinuing use of Outfalls 01A and 001 for remedial discharge and consolidating all effluent discharge through Outfall 002.

To implement the proposed project, the applicant has submitted an application to the New York State Department of Environmental Conservation (NYSDEC) for the modification of ExxonMobil's industrial SPDES permit to allow for the construction and operation of a consolidated groundwater treatment facility at 38 Varick Street, Brooklyn, New York 11222 and for the discharge of the treated water through the existing Outfall 002 at the northern terminus of Meeker Avenue. The applicant is also going to submit an application for modification of its existing Long Island Well permit for the relocation of certain recovery wells. Relocation of these select recovery wells will not affect the scope of the SPDES Permit Modification.

### **Nature of Proposed Project/Action and Purpose**

The EMGPRP is located in the northwest section of Greenpoint, in the northernmost section of the Borough of Brooklyn, New York City, New York. The EMGPRP includes the environmental investigation, monitoring, and remediation activities that ExxonMobil is performing within the project area (Site), shown on Figures 1 and 2, as defined in the Consent Decree between the State of New York and ExxonMobil, filed on March 1, 2011, in the United States District Court, Eastern District of New York (Consent Decree) and under the direction of the NYSDEC.

As part of the EMGPRP, ExxonMobil operates three remediation systems: (1) the Former Brooklyn Terminal Free-Product Recovery and Containment System (RCS) facility located at 400 Kingsland Avenue; (2) the Off-Site Free-Product Recovery System (ORS) facility located at 5 Bridgewater Street; and (3) the Soil Vapor Extraction (SVE) facility located at 38 Varick Street. The RCS and ORS each include a groundwater treatment facility which currently discharge through either Outfall 001 (via Outfall 01A) or Outfall 002 under the existing SPDES permit.

The proposed action involves the relocation and consolidation of the two existing groundwater treatment systems (RCS and ORS) into a single treatment facility designed to handle the combined flow from all existing recovery wells while maintaining compliance with the approved SPDES discharge limits. The facility will also manage other, minor periodic process streams generated during ongoing Site remediation activities as detailed in the existing SPDES discharge permit.

The proposed action includes construction of a new groundwater treatment facility, integrated with the existing SVE system located within the property limits of 38 Varick Street. Once complete, the system will no longer discharge treated groundwater through Outfall 01A or Outfall 001, but instead convey the combined process stream to be discharged exclusively through the existing Outfall 002 located at the northern terminus of Meeker Avenue. The approximate locations of the existing RCS, ORS, and SVE facilities, as well as the existing associated outfalls are shown on Figure 2.

The objectives of relocating and consolidating the existing two EMGPRP groundwater treatment facilities into one facility include:

1. Optimization of the long-term operational efficiency of the groundwater treatment system; and
2. Reducing operational footprint in the Greenpoint community.

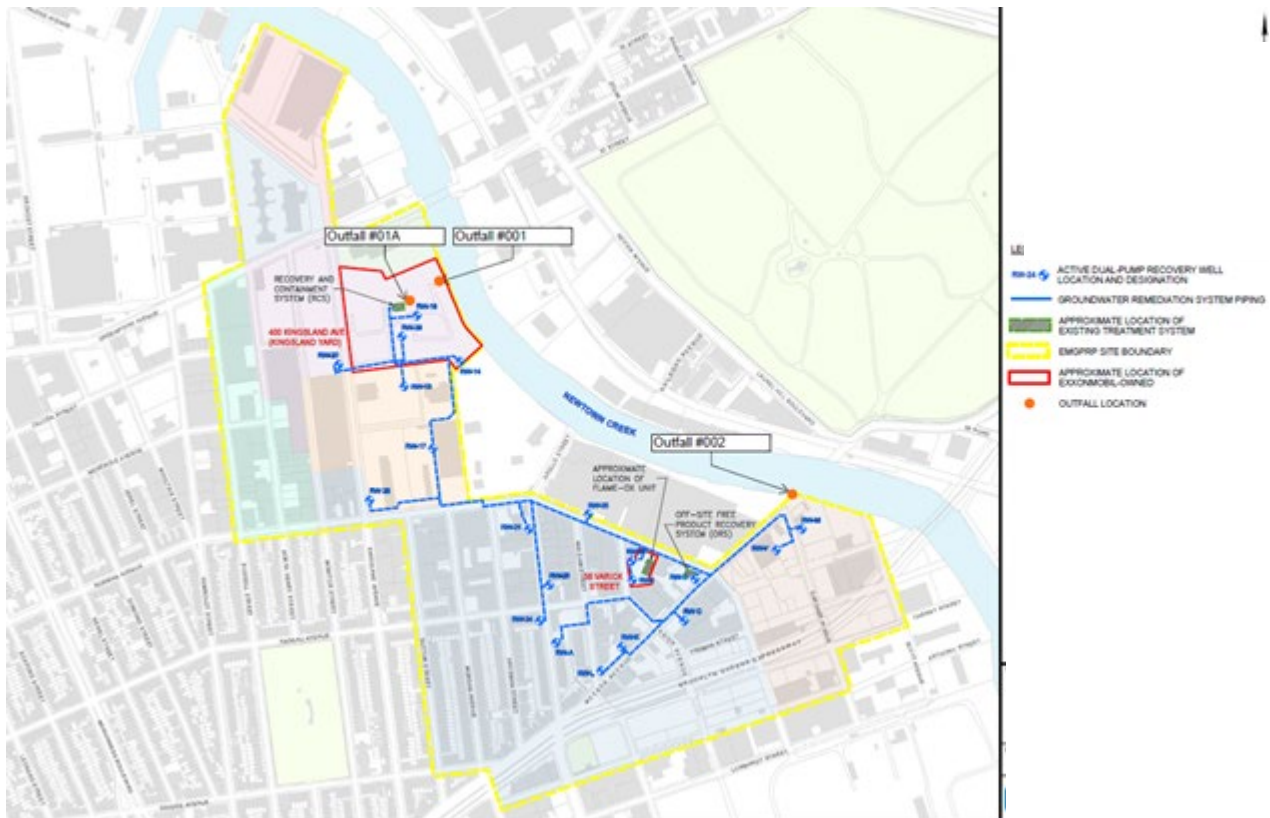

Figure 2. Locations of Existing and Proposed Groundwater Treatment and Discharge Facility

### **Potential Impacts**

The potential impacts surrounding the construction of a new groundwater treatment facility at 38 Varick Street are expected to be typical of a new building construction. The existing RCS and ORS treatment buildings will be decommissioned following construction and start-up of the new facility. The new system will support long-term operations and remediation activities in accordance with the Site's Consent Decree. For clarity, the potential impacts have been categorized based on construction impacts (construction of new facility) and operational impacts (long-term operation of the new treatment facility):

The construction-based impacts are expected to be typical of new building construction and are expected to conclude within 1.5 years of groundbreaking. Impacts are expected to include:

- Potential intermittent periods of increased traffic due to equipment and material deliveries, as well as disposal of excavated soils and construction debris.
- Potential nuisance, dust, odors and noise produced by intermittent heavy construction equipment use during demolition and construction activities.
  - A Community Air Monitoring Program (CAMP) will be developed for all phases of the new facility's construction. The program will outline monitoring, response, and mitigation procedures to be implemented during construction. This program is intended to reduce the likelihood of potential nuisance dust, odor or noise events occurring that would potentially affect the public.

The long-term operational impacts potentially include:

- Operations and Maintenance activities (once operational) will produce background mechanical noise. However, as all equipment will be installed within the walls of the new facility, the potential for nuisance noise to exist outside of the facility is minimal.
- Periodic material deliveries and operational waste removal will result in an intermittent increase in activity at the 38 Varick Street property.

### **III. STAKEHOLDER IDENTIFICATION & CONTACT LIST**

A contact list consisting of the names, addresses, phone numbers, or email addresses of stakeholders to the proposed action is provided in Appendix A. The contact list includes individuals and organizations with a direct stake in the proposed action, as well as individuals and organizations that have expressed interest in the EMGPRP or similar projects affecting the same neighborhood or community.

To develop the contact list, the applicant began with the already existing EMGPRP contact list and then reached out to the Newtown Creek Alliance, the CB1 Environmental Committee, North Brooklyn Neighbors, the Long Island City Partnership, Evergreen Exchange and the North Brooklyn Chamber to help identify additional stakeholders and develop an initial contact list. Additional stakeholders were added to the contact list based on those who had attended previous NYSDEC meetings or who had previously expressed an interest in the EMGPRP.

The current contact list also has been developed in consultation with NYSDEC by identifying stakeholders from the following categories: local government and elected officials; business owners, residents, and occupants; local civic, community, environmental and religious organizations; local news media; administrator/operator of any school or day care that live, work and/or represent a neighborhood or community within the project area.

The applicant will utilize this contact list to communicate and disseminate information about the proposed project/action and permit application review process to the affected community and stakeholders. At minimum, this includes distribution of the written information and outreach materials described in Section V to inform the community about upcoming public meetings and opportunities for public participation.

The contact list will be reviewed periodically and updated as appropriate throughout the permit application review process. The applicant will update the contact list with any new stakeholders identified during the public meeting or execution of other PPP components. In addition, individuals and organizations will be added to the contact list upon request. Such requests should be submitted to the project liaison identified in Section IV. Other additions to the contact list may be made at the discretion of the applicant or, at the request of the NYSDEC project manager, in consultation with other NYSDEC staff, as appropriate.

#### **IV. PROJECT LIAISON**

A representative from the project team will be available during business hours at:

- Kevin M. Thompson  
Public & Government Affairs Advisor  
Environmental & Property Solutions (E&PS)  
(718) 404-0675  
kevin.m.thompson@exxonmobil.com  
38 Varick Street, Brooklyn, New York 11222

Impacted residents and interested stakeholders can contact the project liaison listed above to provide input to the project team, discuss any issues or concerns and/or to ask questions or request information. The project liaison shall respond in a timely manner and in the manner appropriate to the question or information request received. The project liaison will be responsible for tracking and documenting public input, inquiries, questions, and information requests received, along with responses provided.

#### **V. PUBLIC OUTREACH ACTIVITIES**

The applicant will utilize a range of engagement strategies and conduct various public outreach activities to facilitate participation, involvement, and direct communication with the affected community during the permit application review process. The applicant will implement the public outreach activities outlined below upon finalization and approval of this PPP by NYSDEC.

In compliance with the requirements of CP-29, the applicant will hold public information meeting(s) to keep the public informed about the proposed action and the environmental permit review process. At minimum, the applicant will prepare, distribute and post written information and materials, including a meeting notice and fact sheet, to encourage dialogue and solicit input from interested stakeholders during the permit application review process. All public outreach materials and information will be prepared and presented in an easy-to-read, understandable format, using plain language free of legal terminology, and geared towards a non-technical audience.

The public meeting notice and fact sheet will be made available and disseminated in English, Spanish, Polish, and Chinese. In addition, the public can contact the project liaison regarding the availability of language assistance and to request that the notice and fact sheet are translated into another language for comprehension by non-English speaking or limited proficiency stakeholders.

## **Public Meeting(s)**

At the discretion of NYSDEC and, depending on the scale and nature of a project, one or more virtual public meeting(s) must be conducted to satisfy the intent of CP-29.

A meeting is typically required near the end of the permit application review process to inform the public about: the status of, or, if applicable, the availability of, final application materials and draft permits for review; the pending NYSDEC public comment period, and deadline to submit written comments to NYSDEC, if established; and eventual final decision. Meetings may also be held earlier, either pursuant to this plan or possibly even earlier during the initial design phase. If meetings were held prior to submission of this PPP, a summary of them should be included as an appendix.

### **Public Meeting:**

Applicant will facilitate a virtual public meeting or meetings on May 9, 2024 at 6:30 pm to 7:30 pm to:

- Inform the public about the proposed project/action and permit application review status.
- Provide the opportunity for stakeholders to ask questions and express concerns about the project and identify how to obtain information or answers to questions after the meeting has concluded.
- Inform attendees how they may submit written comments on the permit application to the NYSDEC during the public comment period and, if available, identify any applicable deadlines.

### **Necessary Meeting Discussion Points and Requirements**

All meetings will be facilitated by the applicant and/or representatives from their project team (project personnel) via Zoom. During the meeting, the applicant and/or representatives from their project team will present a brief overview of the project, including any relevant background information, details on the permitting action, scope of work, schedule, and community impacts. The second part of the meeting will include a question-and answer-portion where the floor will be open for attendees to ask questions, make remarks, and/or express concerns. In addition, the following discussion points will be addressed:

- Provide an update on the permit application review process and identify outstanding application requirements and future milestones in the application review process.
- Make it clear that the meeting is being held prior to NYSDEC's permitting decision for the project/action.
- Identify the location of the online document repository and provide directions on how attendees may obtain and review materials relevant to the application, documents related to the meeting and other public participation plan components.
- Identify and provide contact information for the project liaison and announce procedures for how attendees may obtain answers to questions after the meeting has concluded and interested stakeholders can submit questions, express concerns, or request additional information by telephone, email, and in writing.

- Announce any future outreach, opportunities for public participation, and /or required follow-up with attendees including, but not limited to: additional meetings and future mailings, including, but not limited to the Notice of Complete Application.

Attendance will be recorded during the virtual meeting by virtual sign-in sheet. At the beginning of the meeting, telephone attendees will be given an opportunity to identify themselves for attendance purposes. The applicant will track the number of attendees for all meetings held during implementation of this PPP and, where feasible and applicable, identify any affiliation of participants and interests represented at the meeting. In addition, the applicant will be responsible for documenting meeting notes or minutes, along with a record of comments and questions raised in the meeting and respective responses and answers provided. Attendees not identified on the contact list will have the option to be added in the event of future meetings or information sharing.

### **Virtual Public Meeting Notice Preparation and Distribution**

Information regarding the details of the virtual public meeting(s) and how to participate via computer and/or telephone is contained in the reader-friendly meeting notice(s) shown in Appendix B. The notice has been prepared in English and will be translated into Spanish, Polish, and Chinese by a certified translator. Through this notice, the public will be invited and encouraged to attend the public virtual meeting scheduled on May 9, 2024, at 6:30 pm to 7:30 pm EST.

Once the PPP has been approved by NYSDEC the public meeting notice will be posted and available in the online document repository described in Section VI of this document. At least two weeks in advance of the public virtual meeting, the notice will be published in the Greenpoint Star, Queens Chronicle, Nowy Dziennik, World Journal, Brooklyn Daily Eagle, and Noticia New York City, which are weekly or daily newspapers printed, published, and circulated weekly and/ or daily in the Greenpoint area. In addition, the public meeting notice will be emailed, mailed and/or hand delivered (door-to-door) to the stakeholders identified in the contact list in Appendix A at least two weeks prior to the public virtual meeting.

### **Fact Sheet Preparation and Distribution**

Factual information on the proposed project/action, including an overview, purpose statement, and potential impacts, is outlined in the reader-friendly fact sheet shown in Appendix C. In addition, the fact sheet outlines how interested stakeholders can: participate in the permit application review process; access the online document repository to review relevant application materials prior to the public meeting; and contact the project team to obtain additional information. The fact sheet has been prepared in English and will be translated into Spanish, Polish, and Chinese by a certified translator.

Once the PPP has been approved by NYSDEC the fact sheet will be posted and available in the online document repository described in Section VI of this document. No later than 2 weeks prior to the public meeting, the applicant will distribute the fact sheet to provide stakeholders with relevant background on the proposed project/action and facilitate meaningful participation during the meeting. The fact sheet will be distributed together with the public meeting notice via email, mail and/or hand delivery (door-to-door).

The fact sheet(s) will also be posted within the vicinity of the project site and visible to the public. For example, they may be posted on some streetlight lampposts or bulletin boards located in the lobby of residential complex buildings or public facilities such as libraries, schools, or community centers within the project site.

### **Distribution of Notice of Complete Application**

Once NYSDEC determines the application(s) for the proposed action/project is complete and provides the Notice of Complete Application (NOCA) to the applicant, the applicant will distribute the NOCA and draft permit, if applicable, to the meeting attendees and any identified interested parties, to provide notification regarding the start of the NYSDEC public comment period and to announce the deadline for submission of written comments to NYSDEC. If the NOCA is available at the time of the meeting, the applicant will distribute the NOCA at the public meeting. If the NOCA is not available at the time of the meeting, the applicant will provide explicit instructions on how to access the online repository and inform the attendees that, once available, the NOCA will be posted to the online document repository and will be distributed to attendees via email or mail as soon as possible, but no later than the date that the NOCA is published by the applicant in the print edition of a paid local newspaper that is circulated at least weekly and available in the municipality in which the project is located.

### **Additional Outreach and Materials**

#### **Citizen Meetings**

ExxonMobil's Project Liaison periodically meets with residents and community groups to provide updates and address community questions about the EMGPRP and its associated SPDES permit application process. These groups may include:

- The Newtown Creek Alliance,
- Community Board #1,
- North Brooklyn Chamber,
- North Brooklyn Neighbors,
- Evergreen Exchange, and
- The Long Island City Partnership.

These meetings are less formal than large public meetings and allow for more personalized interaction. These sessions help to maintain contact with the community and provide continual opportunities for public input. Interested parties may contact the ExxonMobil Project Liaison indicated in Section IV above to inquire about scheduling a meeting.

## **VI. DOCUMENT REPOSITORY**

An online document repository has been established for the community and interested stakeholders to access and review information about the project. The online repository available at <https://bit.ly/3vlqIWW> will provide information and documents relating to the project and permit application.

The repository will be updated throughout the application process with project-related information and written materials (i.e., application forms and supporting materials, draft permit, fact sheet, statement of basis (where applicable), the Notice of Complete Application provided by the NYSDEC, etc.).

## **VII. SUBMISSIONS**

### **Final Summary Report and Written Certification**

Upon completion of the enhanced public participation plan, the applicant will submit written certification to NYSDEC to certify that it has fully executed and complied with the approved PPP. The certification shall be signed by the applicant, or the applicant's agent, and submitted to NYSDEC prior to a final decision on the application.

As part of the certification, the applicant shall submit a final summary report documenting the implementation of this PPP. The report will summarize the activities that occurred in accordance with the PPP, identify any language or disability assistance requests received, document any considerations or accommodations made to-date, and identify any substantive concerns raised by stakeholders during the formal public meeting, any additional citizen meetings, or, at any time throughout the permitting process and detail the applicant's response(s) to any such concerns or questions. The applicant will include, or append, any documentation that supports the final summary report, such as: the meeting sign-in sheet(s), record of attendees/participants, meeting presentation(s), notes or minutes, summary of questions and answers, and copy of newspaper notice or other proof of publication. In addition, the report will identify any changes or modifications to the proposed project that were made or considered by the applicant to address or reduce concerns surrounding the permit application.

The final summary report and written certification will become part of the application record and will be posted to the online document repository so that it is readily available to the public.

# **APPENDIX A**

## **Contact List**

	A	B	F	G	H	I	J	K	L	M	N	O
1	Postal Customer	Name, Title	Street Address		City	State	Zip	Site Name (County)	Affiliation	Last Name	First Name	Email
2	<b>Appendix A. Contact List</b>											
3	<b>Instructions:</b> 1. Enter NYSDEC Application # and Facility Name (if known) in cells A5 and A6 and the date of the list in D6. 2. Each contact list <b>must</b> include the following categories: local government and elected officials; adjacent business owners, residents, occupants and/or property owners; local civic, community, environmental and religious organizations; local news media; administrator/operator of any school or day care that live, work and/or represent a neighborhood or community within the outreach area specified in the PPP ; and any other parties who have requested to be placed on the site contact list. 3. Residents and businesses adjacent to the site should be identified in Column A as " <b>Postal Customer</b> ". <b>Leave Column B blank.</b> For all other categories of individuals and organizations, identify the name and title (if known) in Column B and leave Column A blank. "Titles" are typically for elected officials (e.g., "Senator," "Assemblyperson," "Mayor," "Supervisor").											
4	4. Row 7 does not contain actual column headings. They are in Row 1, so <b>PLEASE DO NOT CHANGE OR DELETE ROW 1.</b> It is necessary for merging to labels and envelopes. 5. <b>Please put P.O. Box numbers in the "Address 3" column, where possible.</b>

# YOU ARE INVITED

## Virtual Public Meeting May 9, 2024 at 6:30 pm ExxonMobil Greenpoint Petroleum Remediation Project (EMGPRP) Industrial SPDES Permit Modification

The ExxonMobil Greenpoint Petroleum Remediation Project (EMGPRP) has submitted an application to the New York State Department of Environmental Conservation (NYSDEC) for a modification of its existing NYS Industrial State Pollutant Discharge Elimination System (SPDES) permit relative to the consolidation and relocation of two existing groundwater treatment systems associated with the EMGPRP to a new groundwater treatment facility to be located at 38 Varick Street, Brooklyn, NY. This action requires a modification to its SPDES permit #NY 0267724. The applicant is also going to submit an application for modification of its existing Long Island Well permit for the relocation of certain recovery wells. A Public Participation Plan has been developed in accordance with NYSDEC Commissioner Policy 29, Environmental Justice and Permitting (CP-29). The purpose of this meeting is to inform the public about the project and to involve the community during the Industrial SPDES permit modification application review process.

Meeting Agenda:

- **Project Overview**
- **Background**
- **Scope of work**
- **Project schedules**
- **Community Impacts**
- **Proposed Mitigation Measures**
- **Questions and Answers**

## **Your Attendance is Important!**

Project personnel will be available to answer questions from the community. For additional information on the proposed project:

- Contact: Kevin M. Thompson by phone at: (718) 404-0675, by email at: [kevin.m.thompson@exxonmobil.com](mailto:kevin.m.thompson@exxonmobil.com)
- Visit the repository at: <https://bit.ly/3vlqlWW>

Contact the project liaison to request reasonable accommodation for a disability or interpreter services in a language other than English, so that you can participate in the call and/or to request a translation of any of the event documents into a language other than English.

**APPENDIX C**  
**Fact Sheet**  
**(Included in English. To be provided in Spanish,  
Polish, and Chinese)**

# **ExxonMobil Greenpoint Petroleum Remediation Project**

## **SPDES Permit Modification**

### **Fact Sheet**

- **Project:** ExxonMobil Greenpoint Petroleum Remediation Project (EMGPRP)
- **Applicant:** ExxonMobil Oil Corporation.
- **Facility:** 38 Varick Street, Brooklyn, New York 11222.
- **NYSDEC Application Number:** SPDES NY 0267724
- **A Public Participation Plan (PPP) has been developed in accordance with NYSDEC Commissioner Policy 29, Environmental Justice and Permitting (CP-29)**

#### **What is the Proposed Project?**

The Proposed Project will consolidate two existing groundwater treatment facilities associated with the EMGPRP into a new groundwater treatment facility to be constructed at 38 Varick Street, Brooklyn, NY 11222. To implement the proposed project, ExxonMobil Oil Corporation has submitted an application for a modification to its existing State Pollutant Discharge Elimination System (SPDES) permit to the New York State Department of Environmental Conservation (NYSDEC). The applicant is also going to submit an application for modification of its existing Long Island Well permit to allow for the relocation of certain recovery wells. The purpose of this fact sheet is to inform the public about this proposed project and to involve the community during the NYSDEC permit application review process.

ExxonMobil Oil Corporation proposes to modify its existing SPDES permit to allow for the modified discharge resulting from the relocation and consolidation of the two active groundwater treatment systems to a new groundwater treatment facility to be located at 38 Varick Street. Subsequent to the consolidation, treated effluent will only discharge from Outfall 002. ExxonMobil Oil Corporation also proposes to modify its Long Island Well permit to reflect the operational status and locations of recovery wells associated with the EMGPRP.

#### **How might the project affect the surrounding community?**

The potential impacts surrounding the construction of a new groundwater treatment facility at 38 Varick Street are expected to be typical of a new building construction. The existing RCS and ORS treatment buildings will be decommissioned following construction and start-up of the new facility. The new system will support long-term operations and remediation activities in accordance with the Site's Consent Decree. For clarity, the potential impacts have been categorized based on construction impacts (construction of new facility) and operational impacts (long-term operation of the new treatment facility):

The construction-based impacts are expected to be typical of new building construction and are expected to conclude within 1.5 years of groundbreaking. Impacts are expected to include:

- Potential intermittent periods of increased traffic due to equipment and material deliveries, as well as disposal of excavated soils and construction debris.
- Potential nuisance, dust, odors and noise produced by intermittent heavy construction equipment use during demolition and construction activities.
  - A Community Air Monitoring Program (CAMP) will be developed for all phases of the new facility's construction. The program will outline monitoring, response, and mitigation procedures to be implemented during construction. This program is intended to reduce the

likelihood of potential nuisance dust, odor or noise events occurring that would potentially affect the public.

The long-term operational impacts potentially include:

- Operations and Maintenance activities (once operational) will produce background mechanical noise. However, as all equipment will be installed within the walls of the new facility, the potential for nuisance noise to exist outside of the facility is minimal.
- Periodic material deliveries and operational waste removal will result in an intermittent increase in activity at the 38 Varick Street property.

**How can I participate in the permit review process?**

- Attend the upcoming virtual public meeting scheduled for May 9<sup>th</sup>, 2024 at 6:30 pm to learn about the project, ask questions and/or express concerns about the project.
- Ask questions, express concerns, provide input or submit by comments in writing, by phone or email to the project contact person identified below.

**Where can I get more information about the proposed project?**

- Visit the online document repository at: <https://bit.ly/3vlqIWW> to obtain application materials, relevant documents, and information about the project.
- Contact Kevin M. Thompson by phone at: (718) 404-0675, by email at: [kevin.m.thompson@exxonmobil.com](mailto:kevin.m.thompson@exxonmobil.com) or in writing at: 38 Varick Street, Brooklyn, New York 11222 for information on the project, instructions on how to attend the upcoming virtual public meeting, or to find out about the status of the permit application and public comment period.

**Who is responsible for reviewing the Permit Application?**

- NYSDEC Region 2 Headquarters, 47-40 21st St., Long Island City, NY 11101, is responsible for reviewing and issuing the required permit modification. Tel: (718) 482-4997; email: [DEP.R2@dec.ny.gov](mailto:DEP.R2@dec.ny.gov)
